There are a number of reasons why measles outbreaks continue to occur. One reason is that some people are not vaccinated. This can be due to a variety of factors, including personal beliefs, religious objections, or lack of access to healthcare.

Another reason why measles outbreaks occur is that the virus is highly contagious. It can spread through the air when an infected person coughs

or sneezes. Even people who have been vaccinated can get measles if they are exposed to a high enough dose of the virus.

The government and the media have a responsibility to inform the public about the risks of measles and the importance of vaccination. However, there is evidence that the government and the media have not been doing enough to protect the public from measles.

In 2019, the Centers for Disease Control and Prevention (CDC) reported that there were over 1,200 cases of measles in the United States. This was the highest number of cases reported in the United States since 1992.

The CDC also reported that over 80% of the people who got measles in 2019 were not vaccinated. This shows that the measles vaccine is very effective at preventing measles. However, it also shows that there is a significant number of people who are not vaccinated.

The government and the media have a responsibility to inform the public about the risks of measles and the importance of vaccination. However, there is evidence that the government and the media have not been doing enough to protect the public from measles.

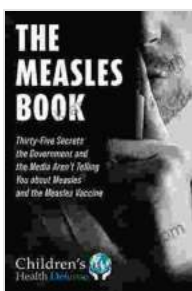

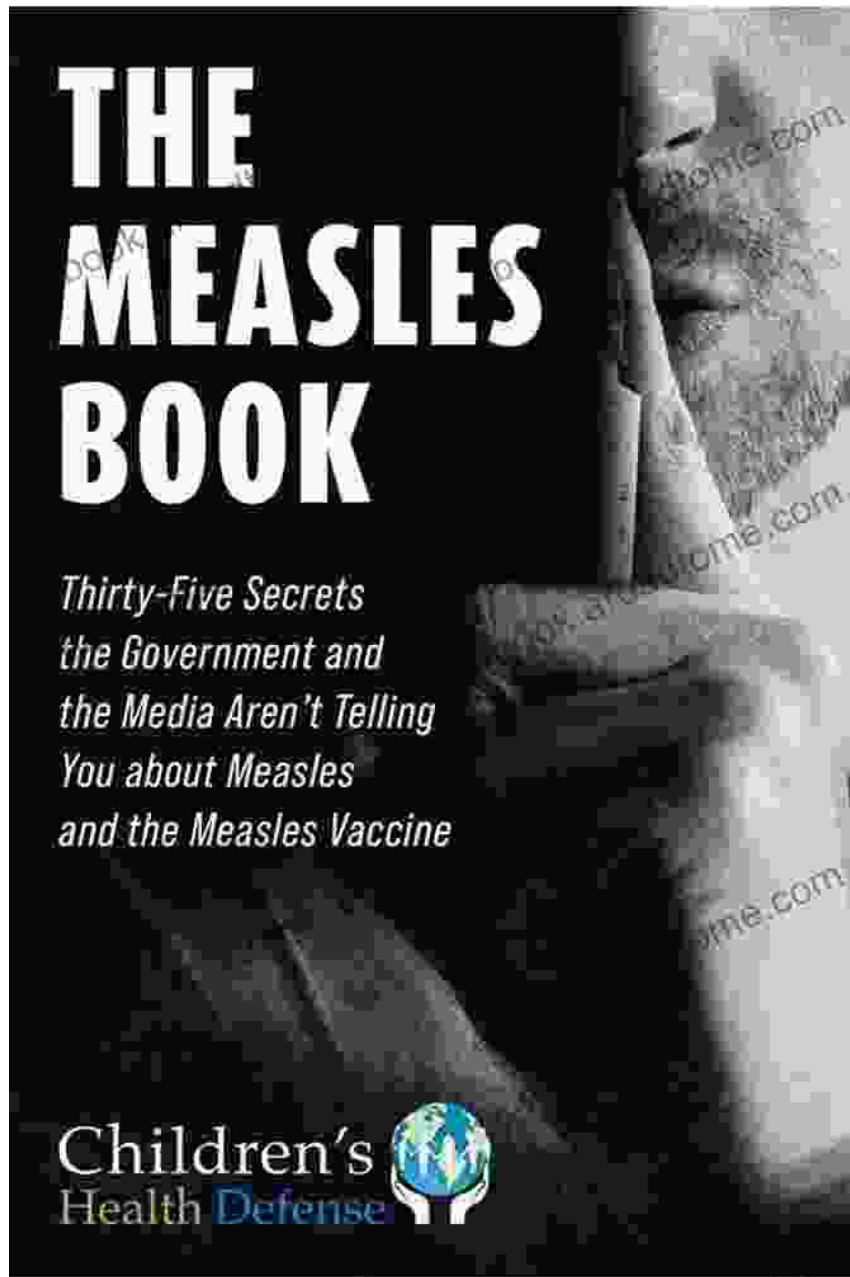

In this book, we will reveal 35 secrets that the government and the media have been hiding from you about measles. These secrets include:

1. The government knows that the measles vaccine is not 100% effective.
2. The government knows that the measles vaccine can cause serious side effects, including death.

3. The government knows that the measles virus is not as dangerous as the media makes it out to be.
4. The government is deliberately downplaying the risks of measles in Free Download to promote the measles vaccine.
5. The media is complicit in the government's cover-up of the truth about measles.

These are just a few of the secrets that the government and the media have been hiding from you about measles. In this book, we will expose the truth about measles and help you make informed decisions about your health.
