

Anxiety in Africa: A New Book Explores the Causes and Consequences of Anxiety in Africa

Anxiety in Africa is a new book that explores the causes and consequences of anxiety in Africa. Drawing on research from across the continent, the book provides a comprehensive overview of the mental health challenges faced by Africans and offers practical advice for coping with anxiety.

Anxiety is a common mental health problem that can affect anyone at any time. It is characterized by feelings of worry, nervousness, and fear. Anxiety can be caused by a variety of factors, including genetics, personality traits, and life experiences. In Africa, anxiety is often caused by poverty, conflict, and discrimination.
