As a parent, you want to give your child the best possible education. You want them to be successful in school and in life. One way to help your child succeed is to encourage their love of learning. And what better way to do that than with fun and engaging math riddles?

Math riddles are a great way to help kids develop their problem-solving and critical thinking skills. They also help kids learn math concepts in a fun and engaging way. And best of all, math riddles are a great way to spend time with your child.

If you're looking for a fun and educational way to challenge your child's math skills, then look no further than Math Riddles For Smart Kids. This book is packed with over 100 math riddles that are perfect for kids ages 6-12. These riddles cover a wide range of math topics, including addition,

subtraction, multiplication, division, fractions, decimals, and geometry. So whether your child is just starting out in math or is already a math whiz, they're sure to find something to challenge them in this book.

Here are just a few of the math riddles you'll find in this book:

- I am a number that is greater than 10 but less than 30. I am an even number. I am divisible by 5. What number am I?
- I am a shape with four sides. I have two pairs of parallel sides. I have four right angles. What shape am I?
- I am a fraction that is greater than  $\frac{1}{2}$  but less than 1. I am a fraction that is in simplest form. What fraction am I?

These are just a few of the many math riddles you'll find in this book. So if you're looking for a fun and educational way to challenge your child's math skills, then look no further than Math Riddles For Smart Kids.
