I underwent surgery, radiation, and hormone therapy. The treatments were difficult, but I was determined to fight. I had a great support system in my family and friends, and I was also able to connect with other prostate cancer survivors through online support groups.

After 10 years of fighting, I am now cancer-free. I am grateful for every day that I have, and I am committed to helping others who are fighting prostate cancer.

This memoir is my story. I share my experiences with diagnosis, treatment, and recovery in the hopes that it will help others who are facing this disease.
